

Service Commission

Our Service Commission has defined its charter to identify areas of need in the local community and to develop responses through programs or actions that aim to serve humanity and promote justice. The Commission seeks to network with other groups and entrusts all members of the community to put into action the mandate Jesus gave to the disciples: “As I have don, so you must do.”

The Service Commission is instrumental in coordinating a number of important programs for the community including: Red Cross Blood Driv, Thanksgiving Dinner Program, Christmas Giving Tree Program, Easter Basket Program and the Not Your Ordinary Food Drive.

The Service Commission is closely associated with the Christian Service Department which has expanded its programs in many new directions in recent years. “Striving to make a difference”, the Christian Service group continues to minister to our parish community as well as the local community.
