

Worship Commission

Our Worship Commission serves to further enhance our liturgical and ecumenical experiences. The group takes a leadership role in liturgical development through education, planning and evaluation.

Key initiatives include promoting our common work of gathering for prayer, sacraments and sharing the Word of God. This commission is responsible for coordinating the liturgical seasons of the year along with its supporting ministries.

Its primary focus is the worship space and the training of new liturgical ministers, such as Eucharist ministers, lectors and ushers. The commission is also responsible for planning and developing parish liturgies and prayer events in concert with the pastor and music ministry director.
